Wilton Teen Center Open House

*Remarks by Toni Boucher, State Representative,
#143*

Congratulations to the Wilton Teen Center Committee, its generous contributors, its wonderful volunteers and all the students for caring the torch and working so hard to make this day possible.

You have all turned a dream into reality and will be helping not just today's Wilton teens but all the future generations of Wilton Teens that come after you.

Please know that I will continue to support you in any way that I can to bring the teen center to final completion. Keep your fingers crossed for a little help from the state in the next month!

The words of Perla D. Santos express my belief best when she states that:

"The day will come
when the progress of nations (and communities) will be judged
not by their military or economic strength,
not by the splendor of their capital cities
and public buildings,
but by the well-being of their peoples:
by their levels of health, nutrition
and education.....
and by the protection that is afforded to
the growing minds and bodies of their
children."
